NEWHAVEN & SEAFORD SAILING CLUB **RYA Powerboat Level 2 Courses 2022**

Description

This course is an introduction to Powerboating and is aimed at the complete beginner.

The all-practical course is delivered over 2 days by RYA registered Instructors, on our high-speed planning-hull RIBs with wheel-steered outboard engines, and our displacement hull with inboard engine, from our training base at Newhaven Marina and on the sea in Seaford Bay. We also encourage helms to attend the short course with tiller steered outboards on the inland water at Piddinghoe.

At the end of the course the trainee will have a basic knowledge of powerboating, be safety-conscious, and be able to handle a powerboat in familiar waters by day. Club members are offered a substantial discount on usual fees, on the understanding that they give their time to the club undertaking race-support duties and have attended instruction on laying and retrieving race marks, and basic rescue techniques.

The training includes theory and background information on types of craft and engines, safety on water, weather forecasts, tides and their effects, collision regulations, chartwork, use of compass and GPS, launching and recovery to a trailer, recovering a man overboard, anchoring and much more.

The trainee will have ongoing assessment, and if successful, an RYA Powerboat Level 2 Certificate will be awarded. If further training or practice is required to achieve RYA standards, an action plan will be agreed. Included in the cost is the RYA book Start Powerboating (G48), the RYA Syllabus and Logbook (G20), and the RYA Certificate. Additional reading materials are available from the online RYA Bookshop.
