

Help us to support the next generation

Our sailing season at Seaford starts in April, and continues until October. Club sailing is held on Sunday mornings and Wednesday evenings. As well as racing, we also hold regular social events and annual picnic cruises to Cuckmere Haven.

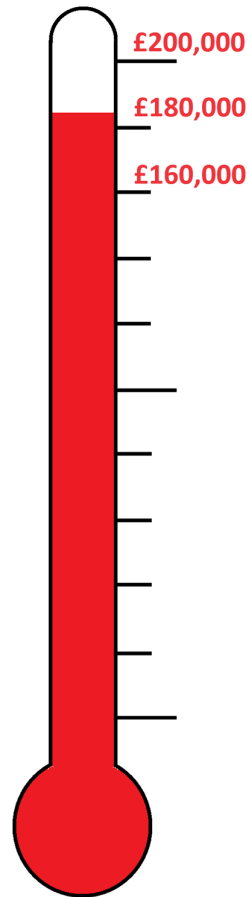

We want the next generation of sailors and social members to enjoy the great facilities used by previous generations. We also want to enhance these facilities, and to once again be a community meeting place and hub on the seafront for the enjoyment of the many.

Help us to raise the funds

Over many years, we have carefully saved away £185,000 in readiness for future anticipated building works. However, we do not yet have enough to complete the major project that now faces us. The cost-of-living crisis has made this an even more difficult task to achieve.

To complete the major structural repairs and be able to get the building functional again, we require a minimum of £205,000.

Newhaven & Seaford Sailing Club (Est. 1952)

Fundraising Leaflet

- The Seaford clubhouse is a valuable local community asset and sports facility.
- The building needs major structural repairs to be able to reopen again.
- We need **your help** to make this happen.

Can you help us? We're currently on

Our vision for the clubhouse

To restore the building so that it can be used again, we need to carry out major building works. We also want to improve accessibility to the building as well as to put better safeguarding measures in place.

- Replace the steel supports and reinstate structural integrity
- Rebuild the brickwork surrounding the steelwork
- Replace or repair the external cladding
- Replace the fire alarm system
- Improve safeguarding by adding individual cubicle partitions to the changing room areas
- Replace the wooden decking, sliding doors and external shutters
- Improve disabled access to the building

History

In the early 1970s, NSSC raised funds to build a clubhouse on the seafront between Newhaven and Seaford.

Built on a tight budget with members' donations, the predicted lifespan was just 25 years. The simple yet strong design greatly exceeded these expectations, and lasted for 50 years! But with decades of exposure to the natural elements, the steel structure of the building ultimately corroded, and the building had to be closed in late 2023.

About us

- We are family-friendly and community-based
- We are inclusive and have a broad and diverse membership
- We are run and led solely by volunteers

Founded in 1952, we are a family-friendly, RYA-affiliated water sports club and training centre, with more than 1,000 members of all ages and abilities.

- NSSC is a **not-for-profit** organisation
- Our members are aged from 7 to late 70s
- We sail and race all year round, and hold regular social events
- Our Sailability group enables disabled people to partake in sailing activities
- We have a growing youth cohort of sailing cadets
- Our members also windsurf, kayak, kitesurf, wing foil, and paddleboard
